Location: India || Phone: +91 9330606785 || Email: debdut937@gmail.com || LinkedIn: <https://www.linkedin.com/in/debdut-nandy-4b0a88321> || GitHub: <https://github.com/Deb124-source> || Portfolio: <https://debdutnandy.netlify.app/>

SUMMARY:

Motivated Computer Science undergraduate with a strong foundation in Python, Machine Learning, and Data Analysis. Passionate about applying AI to solve real-world problems and eager to contribute to research through analytical thinking, problem-solving, and continuous learning. Seeking opportunities to gain hands-on research experience while expanding technical and scientific knowledge.

EDUCATION:

- **GRADUATION:** Brainware University – B.Tech CSE(AI+ML) – [2024-2028]
CGPA: 9.38
- **HIGHER SECONDARY:** Birati High School(H.S) – [2016-2024]

TOP SKILLS:

TECH SKILLS:

Programming Languages: Python, SQL

Machine Learning: Scikit-learn, Machine Learning, Data Analysis & Visualization, Statistics

Tools: Git, GitHub, Streamlit

SOFT SKILLS:

Analytical Thinking

Problem-Solving

Critical Thinking

Communication Skills

EXPERIENCE:

- AICTE approved Conversational Data Analysis internship at Edunet Foundation (September 2025-October 2025)
- AICTE approved Green Skills & AI internship at Edunet Foundation (October 2025-November 2025)

PROJECTS:

- **ProMail AI – AI Powered Email Assistant**
Developed an email generation platform that creates professional emails from user prompts using LLMs.
Tech Stack: Python, Streamlit, Google Gemini API, Prompt Engineering
Repository Link: (<https://github.com/Deb124-source/ProMail-AI-Debdut-Nandy>)
Live Demo: (<https://promail-ai-debdut-nandy.streamlit.app/>)
- **Truthenix AI – AI Powered Fake News Detector:**
Built a machine learning-based fake news detection system using NLP techniques, TF-IDF Vectorization to accurately distinguish between genuine and fake news articles.
Tech Stack: Python, Scikit-learn, Pandas, NumPy, NLP, TF-IDF, Streamlit
Repository Link: (<https://github.com/Deb124-source/Truthenix-AI-Debdut-Nandy>)
Live Demo: (<https://truthenix-ai-debdut-nandy.streamlit.app/>)
- **House Price Prediction System :**
Developed a regression model for predicting house prices using data preprocessing, feature engineering, and machine learning algorithms, followed by model evaluation and deployment.
Tech Stack: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Streamlit
Repository Link: (<https://github.com/Deb124-source/House-Price-Prediction-System-Debdut-Nandy>)
Live Demo: (<https://house-price-prediction-system-debdut-nandy.streamlit.app/>)

CERTIFICATIONS:

- Data Analysis Job Simulation by Deloitte Australia.
- Gen-AI Powered Data Analysis Job Simulation by TATA Group.
- Introduction to Large Language Models by Google.
- Oracle Cloud Infrastructure 2025 AI Foundations Associate.
